Our Core Business Development Team

Our CBDT (core business development team) is made up of top tier consultants, experienced security clearance professionals with expertise in the field and technically advanced professionals that are contract based. We keep our CBDT small, yet we are highly effective with incredible deliverable capabilities.

OUR ORGANIZATIONAL MODEL

Strategic Pharmaceuticals does not disclose the intimate details of our operations platform or the technologies that we utilize to provide contract fulfillment. The model shown does however give a generalized outline of our operational platform showing the internal elements of various points of contact.

Strategic Pharmaceuticals is a "build to suit" contractor who caters to the individual needs of our Client specifically. We do set a high standard for operational excellence and we apologize that this information is somewhat vague however this is by design. Once we solicit any opportunity our CDBT (core business development team) identifies the resources and personnel we need to fulfill our obligations and then we create a POA (plan of action) of execution. Our work can be done in phases, stages or at a 100% fulfillment 24/7 state of readiness.

The facilities that Strategic Pharmaceuticals operates are designed to meet multiple needs from our clients within the Tier 1 and Tier 2 services we provide. A base facility includes, however may not be limited to:

- Off-grid operational capacity for communications, water and power with back-ups in place to ensure we do not go off-line.
- Supplies that are in-stock under contract, as well as to maintain a 24/7 state of readiness.
- Secure controlled access with lock-down protective measures.
- 24/7 Video for the interior and exterior of our facilities.

Other design elements are based on the contractual fulfillment obligations and are an intimate part of our IP (intellectual property) however we can disclose that some advanced features are:

- EMP (electro-magnetic pulse) protected SUV vehicle on-site.
- Climate controlled storage.
- CDC (center for disease control) laboratory with controlled environment.
- Sound and/or bullet proof interior.
